Introduction

Please do not use these *color charts* as *color lists* for the different beads. Each type of bead is only available in a limited number of colors! When ordering use the catalogue for your selection. Additional colors can be found in our "boat arrival notices."

The charts are used for viewing the colors for:

- 1) Seed and rocaille beads.
- 2) Bugle beads.
- 3) 2-cut beads.
- 4) Three cut beads. (see reference page for these items)
- 5) Square cut beads.
- 6) Nibbles.
- 7) Rockettes.
- 8) Pips.

Go to the INDEX to "hyperlink" to the color charts. (hyperlink = CTRL (button on keyboard) – held down + right click on name.) Try it on INDEX.

You can find a list of the seed bead numbers and the colors on the page SEED BEAD COLOR LIST. For example if you want to find out what color number 700 represents; then go to this list.

Three cut colors. If, you need to find a three cut color, you should go to the THREE CUT COLOR FINDER. When you find the "three cut number," it will show you the seed bead number. Then, go to the "index."

If you have any questions, please call or email.
